CHATGPT ENTERPRISE

AI tools & capabilities I use

Built-In ChatGPT Enterprise Capabilities

Conversational AI & Analysis
Analyze, question, synthesize, recommend

File Analysis
Excel, Word, PDF, PowerPoint, images

Web Research
Find and summarize information

Image Generation / Editing
Create and customize visuals

Document Creation
Reports, trackers, meeting materials

Connected Plugins / Integrations

Microsoft Outlook Email
Find, summarize, and work with email

Microsoft Outlook Calendar
Review meetings, deadlines, availability

Plugin Management
Find and manage additional plugins

Together, these tools help me reduce manual effort, maintain context, and turn detailed work into clear, actionable information.

CHATGPT ENTERPRISE

Plugins I use with ChatGPT Enterprise

Microsoft Outlook

EMAIL

Find, summarize and draft email without leaving ChatGPT

Summarize what came in today and flag anything that needs a reply from me.

“Draft an email to Jordan with an update on these items and next steps.”

Outlook Calendar

CALENDAR

Review meetings, deadlines and open time on my schedule

Check my week against the tracker so deadlines land on days I actually have time.

“Based on this tracker and my calendar, help me prioritize my time this week.”

Microsoft Teams

CHAT & MEETINGS

Catch up on team chats, channels and meeting discussions

Pull decisions and action items out of team threads so they make it onto my tracker.

“Summarize the key decisions and action items from this week’s team chats.”

SINCE AUGUST 2026

Four kinds of work I hand to Claude

Spreadsheets and reconciliation

Matching trackers to transaction reports; award calculations

Budgets and forecasting

Dynamic FY27 budget; remaining funding by award and PI

Presentations

Refreshing our FY27 review deck with current PeopleSoft data

Writing and guidance

Staff communications; a guide to charging costs on awards

SPREADSHEETS AND RECONCILIATION

Discretionary fund tracker

WHAT I TYPED (WITH THREE WORKBOOKS ATTACHED)

"Please include incentives in the main FY26 Tracker worksheet"

WHAT I ASKED

Combine a sample tracker and two transaction reports into one working discretionary fund tracker.

WHAT CLAUDE DID

Read every tab, added formulas matching posted actuals to tracker lines, and fixed a formula error showing #VALUE! on every row.

THE RESULT

A reconciled workbook with an "Items for Review" tab that flagged unexplained charges instead of guessing.

SPREADSHEETS AND RECONCILIATION

Remaining funding on sponsored awards

WHAT I TYPED (WITH THE PEOPLESOFT EXPORT ATTACHED)

"Calculate the remaining months of the award and place the amount of months in column V. Use P and Q to determine the total months of the award schedule… Use the remaining months to appropriate the Remaining Total Direct Costs, the Remaining indirect costs, and remaining total funded (W, X, Y, respectively). Use columns R, S, T respectively as the baseline."

WHAT I ASKED

From a PeopleSoft awards export, calculate the months left on each award and the funding that remains.

WHAT CLAUDE DID

Counted total and elapsed months from start and end dates, then prorated remaining direct, indirect and total costs.

THE RESULT

Remaining funding for every award, with the as-of date and method on their own tab so anyone can check it.

REMAINING FUNDING · SEPT 30, 2026

$179.7M

left on 106 active awards across 38 PIs (vs. $527.3M total funded)

BUDGETS AND FORECASTING

A dynamic FY27 core budget

WHAT I TYPED (WITH THE FY27 CORE BUDGET FILE ATTACHED)

"I need you to take each tab here and create a dynamic budget using account principles and standard accounting categories."

WHAT I ASKED

Turn our nine-tab IGHS core budget file into a dynamic budget using standard accounting categories.

WHAT CLAUDE DID

Restructured each tab into personnel, fringe and operating categories, and added a master summary that rolls up against revenue.

THE RESULT

A formula-driven budget: change one input and the whole FY27 picture updates.

PRESENTATIONS

Refreshing the FY27 review deck

WHAT I TYPED (WITH THE DECK AND AWARDS DATA ATTACHED)

"Please use fund data from columns W, X, Y for remaining totals."

WHAT I ASKED

Update our existing PowerPoint with refreshed PeopleSoft data and a remaining-funding view.

WHAT CLAUDE DID

Rebuilt the PI roll-up tables for 106 active awards, added a funding waterfall slide, and renumbered the pages.

THE RESULT

Our own template and branding, with slides that match the source data, without rebuilding the deck by hand.

WRITING AND GUIDANCE

A staffing update to PIs

WHAT I TYPED (AFTER PASTING IN MY DRAFT)

"Yes please draft the actual email to be able to copy and paste with bullets for MS Outlook"

WHAT I ASKED

Proofread an email to PIs and program managers about interim coverage during a team transition.

WHAT CLAUDE DID

Caught typos, tightened wording, added portfolio details from an attached plan, and formatted it for Outlook.

THE RESULT

A clear, specific message: who covers which portfolios, and when, ready to paste and send.

WRITING AND GUIDANCE

Guide to charging costs on awards

WHAT I TYPED (A FOLLOW-UP QUESTION)

"Should the checklist also specify whether sponsored award has included budget for administrative or grant management support"

WHAT I ASKED

Create a guide the team can use to decide whether a cost can be charged to a sponsored award.

WHAT CLAUDE DID

Drafted a shareable document with a checklist, then added items as questions came up, like admin salaries.

THE RESULT

A living reference we can keep updating, instead of a one-off answer buried in email.

MY PROCESS

How I work with Claude

1
Start with the real file

IN MY WORK

PeopleSoft awards export; Fund 5000 and 7100 transaction reports

2
Be specific

IN MY WORK

"Use fund data from columns W, X, Y for remaining totals"

3
Review the work

IN MY WORK

Checked the "Items for Review" tab before the tracker went to leadership

4
Iterate

IN MY WORK

"Please include incentives in the main FY26 Tracker worksheet"

WHAT I GOT BACK

- Reconciled fund tracker · Excel
- Remaining-funding workbook · Excel
- FY27 core budget · Excel
- FY27 review deck · PowerPoint + PDF
- Staffing email · Outlook-ready
- Cost-charging guide · shared doc

LESSONS LEARNED

What I'd tell a colleague starting out

Ask for the finished product

It can build real Excel files, PowerPoint slides and documents, not just answer questions.

Specific asks, better results

Column letters, as-of dates and the format you want make a big difference.

Always verify the numbers

It flags gaps well, but I check figures before anything goes to leadership.

Mind the data

Follow UCSF guidance on which data can be used with AI tools.

SPENDING PACE

23.0% of budget spent — Dashed line = 25% of year elapsed

Q1 spending is slightly behind pace, averaging $695K a month against a $754K monthly budget.

KEY TAKEAWAYS

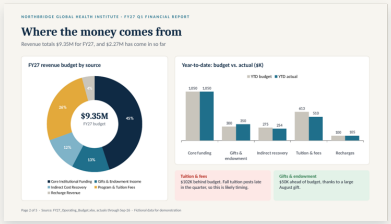

On track overall. Revenue is at 97.1% of its year-to-date budget and expenses at 92.1%.

Most of the surplus is timing. Subawards are $240K under budget because partner invoices lag. Excluding that, the year-end net is closer to $169K.

Watch list: Travel & Events and Professional Services are running over, and tuition collections are behind budget.

KEY TAKEAWAYS

On track overall. Revenue is at 97.1% of its year-to-date budget and expenses at 92.1%.

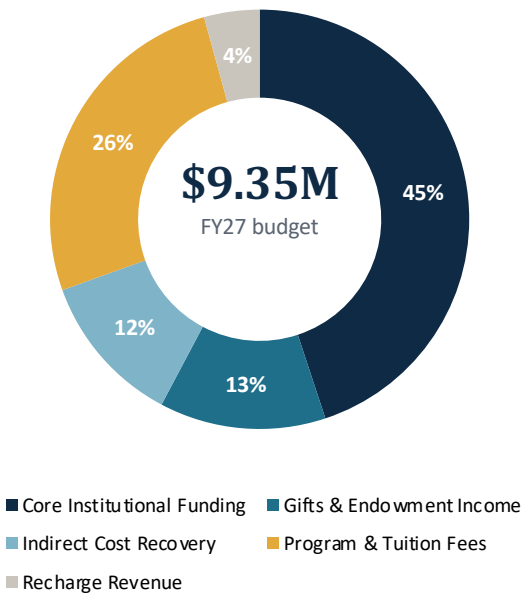

Most of the surplus is timing. Subawards are $240K under budget because partner invoices lag. Excluding that, the year-end net is closer to $169K.

Watch list: Travel & Events and Professional Services are running over, and tuition collections are behind budget.

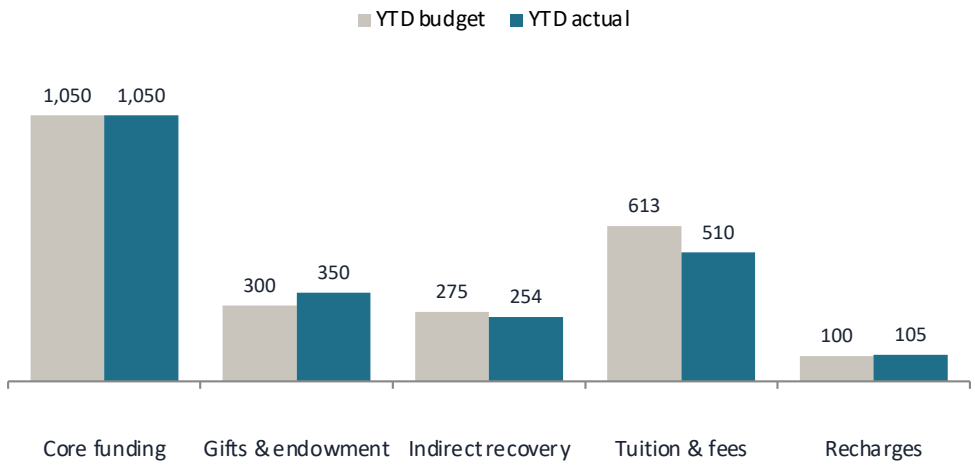

Where the money comes from

Revenue totals $9.35M for FY27, and $2.27M has come in so far

FY27 revenue budget by source

Year-to-date: budget vs. actual ($K)

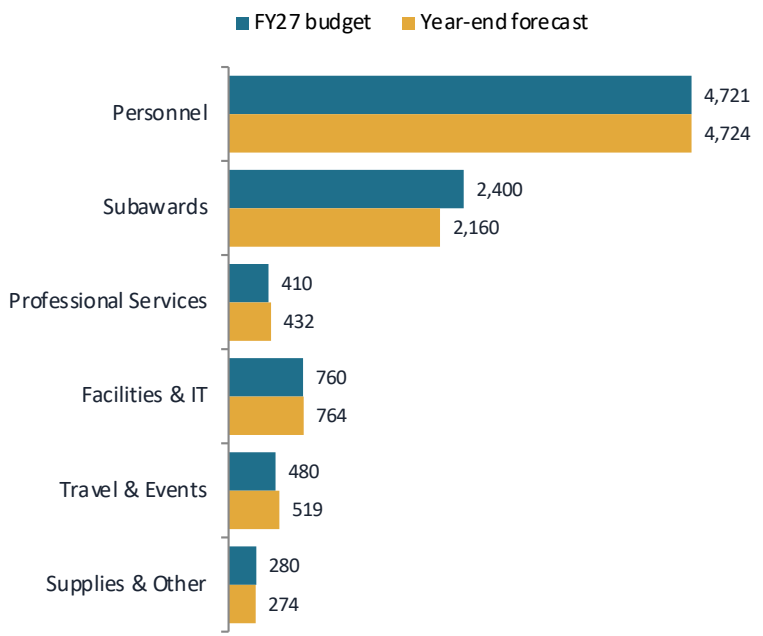

Tuition & fees
$102K behind budget. Fall tuition posts late in the quarter, so this is likely timing.

Gifts & endowment
$50K ahead of budget, thanks to a large August gift.

Where the money goes

$2.08M spent of a $9.05M expense budget

FY27 budget vs. year-end forecast ($K)

Year-to-date by expense group

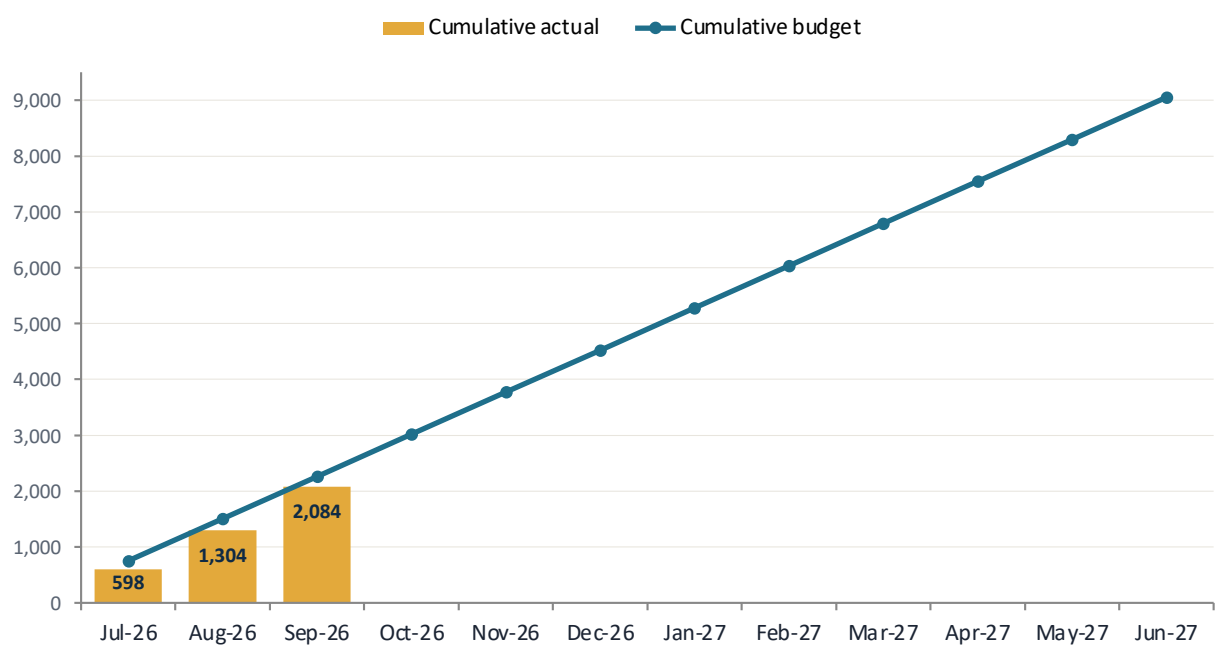

Group	YTD budget	YTD actual	% used	Status
Personnel	$1,180K	$1,183K	25.0%	On track
Subawards	$600K	$360K	15.0%	Under
Professional Services	$103K	$125K	30.4%	Over
Facilities & IT	$190K	$194K	25.5%	On track
Travel & Events	$120K	$159K	33.1%	Over
Supplies & Other	$70K	$64K	23.0%	Under
Total	**$2,263K**	**$2,084K**	**23.0%**	Under

A quarter of the way through the year, each group should be near 25% used. "Over" and "Under" flag groups more than 2% off their YTD budget.

RECOMMENDED NEXT STEPS

- Confirm subaward invoice schedules with partners
- Review travel approvals and consultant contracts
- Track fall tuition receipts through October

PROMPTS

Prompts that got me here, and ones to try

PROMPTS I USED FOR THIS DECK

1. *“Give me a live Excel budget that I can turn into a dynamic 5-page financial report with graphs and charts that wow the user.”*
2. *“Put a spreadsheet side by side with a slide that converts it into a table and graphs.”*
3. *“Use this document to create slides of how I use ChatGPT. Make sure each one is clean and clear.”*
4. *“Where there are names, replace them with different, arbitrary names.”*

Prompts on the left are lightly edited for length.

PROMPTS TO TRY TODAY

1. *“Summarize this budget in three bullet points for leadership.”*
2. *“Which lines are most over budget, and what could explain it?”*
3. *“If travel keeps its Q1 pace, where do we land at year-end?”*
4. *“Here are October actuals. Update the workbook and the report.”*
5. *“Turn page 1 of this report into an email to my director.”*
6. *“Check this workbook for formula errors or numbers that don’t tie.”*
